Introduction

The most comprehensive range of off-the-shelf telescopic slides in the world

Accuride has been at the forefront in the design and manufacture of telescopic slides and access and movement systems since 1962.

Our products ensure the smooth movement of sliding components, contributing significantly to optimum space utilization, efficient storage and easy access for repair and maintenance.

Quality

With extensive first-class manufacturing and testing facilities, we are able to offer quality components that will perform reliably over the lifetime of your product.

All our production facilities are registered to **ISO 9001:2008** with the German plant certified to both **ISO 9001:2015** and to the **ISO 14001:2009** Environmental Standard. The Accuride plant in Mexicali has an established programme that adheres to the **ISO 14001** standards and policies.

Local availability and fast delivery

Our highly successful **Quick Ship Programme** is designed for customers who require an off-the-shelf service.

Quick Ship Programme covers an extensive range of slides and ancillary products and is available through the widespread Accuride sales and distribution network, as well as for purchase directly from our dedicated online shop at www.accuride-europe.com

Our distribution partners, backed by Accuride's design and technical teams, are expert in recommending the right slide for integration into your product.

Please contact us for details of your local Accuride distribution partner.

This catalogue is available in print, or via our website, www.accuride-europe.com

As market demand changes Accuride may alter the products included in the **Quick Ship Programme** and we reserve the right to alter specifications without notice.

Your local Accuride distributor or our online advisors will be able to advise you on product availability.
