- **B-moved - Sistema elettrico per l'apertura e la chiusura delle ante.**
B-moved - Electric system for opening and closing of the doors.

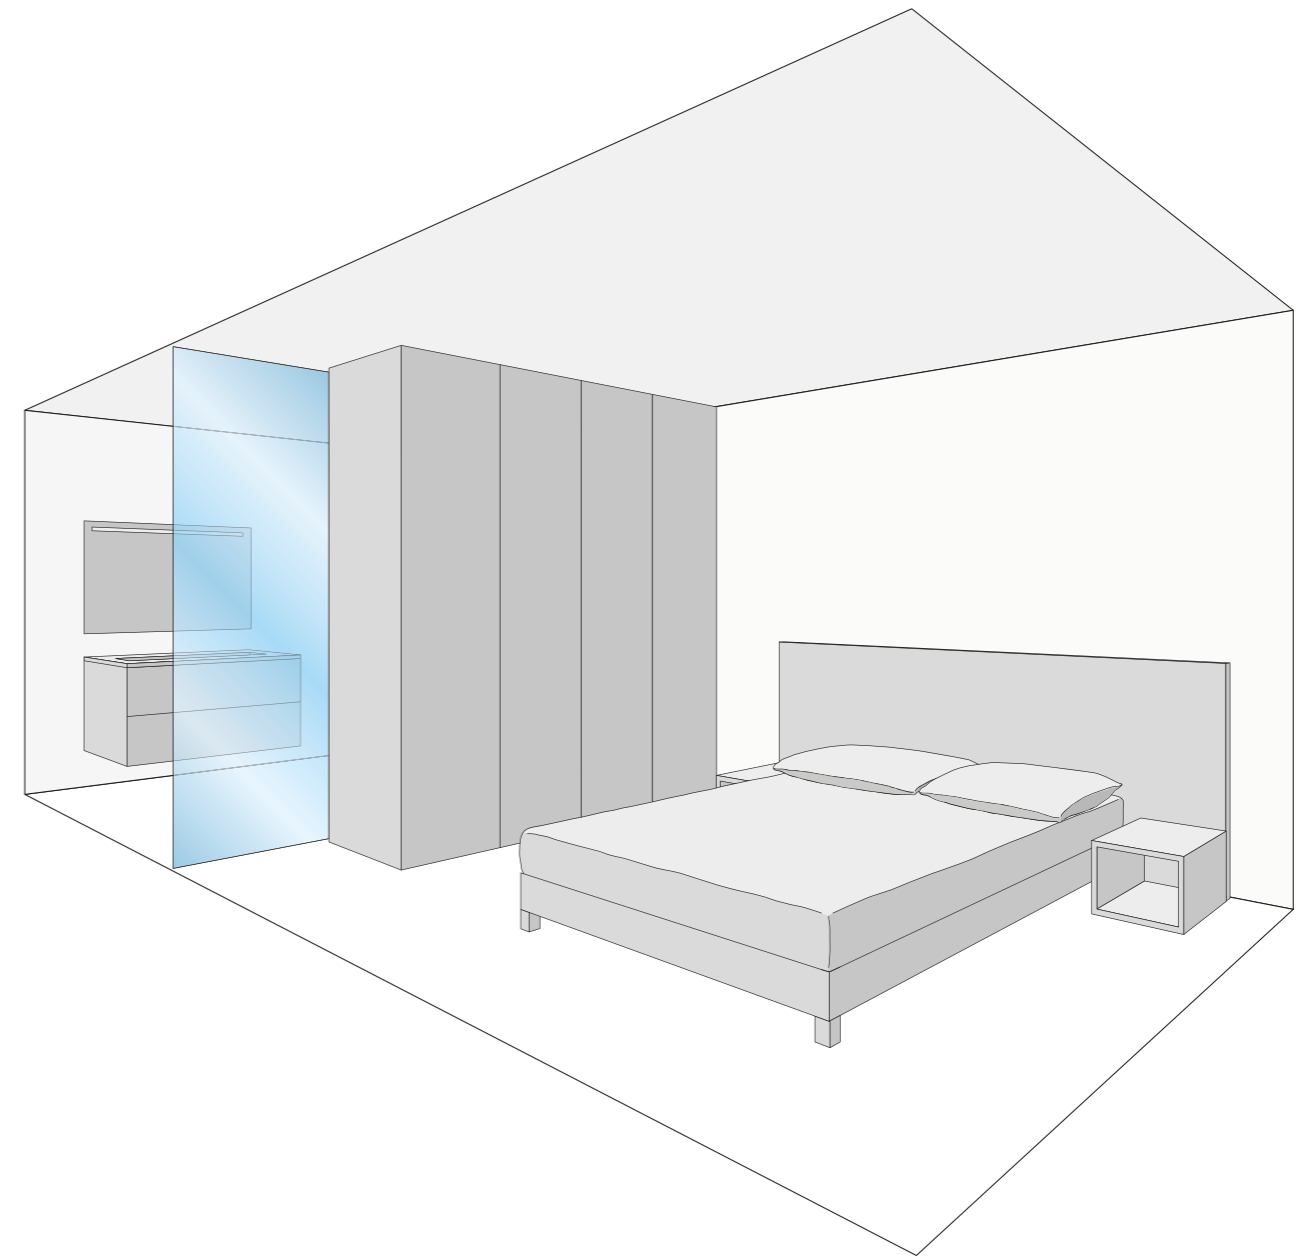

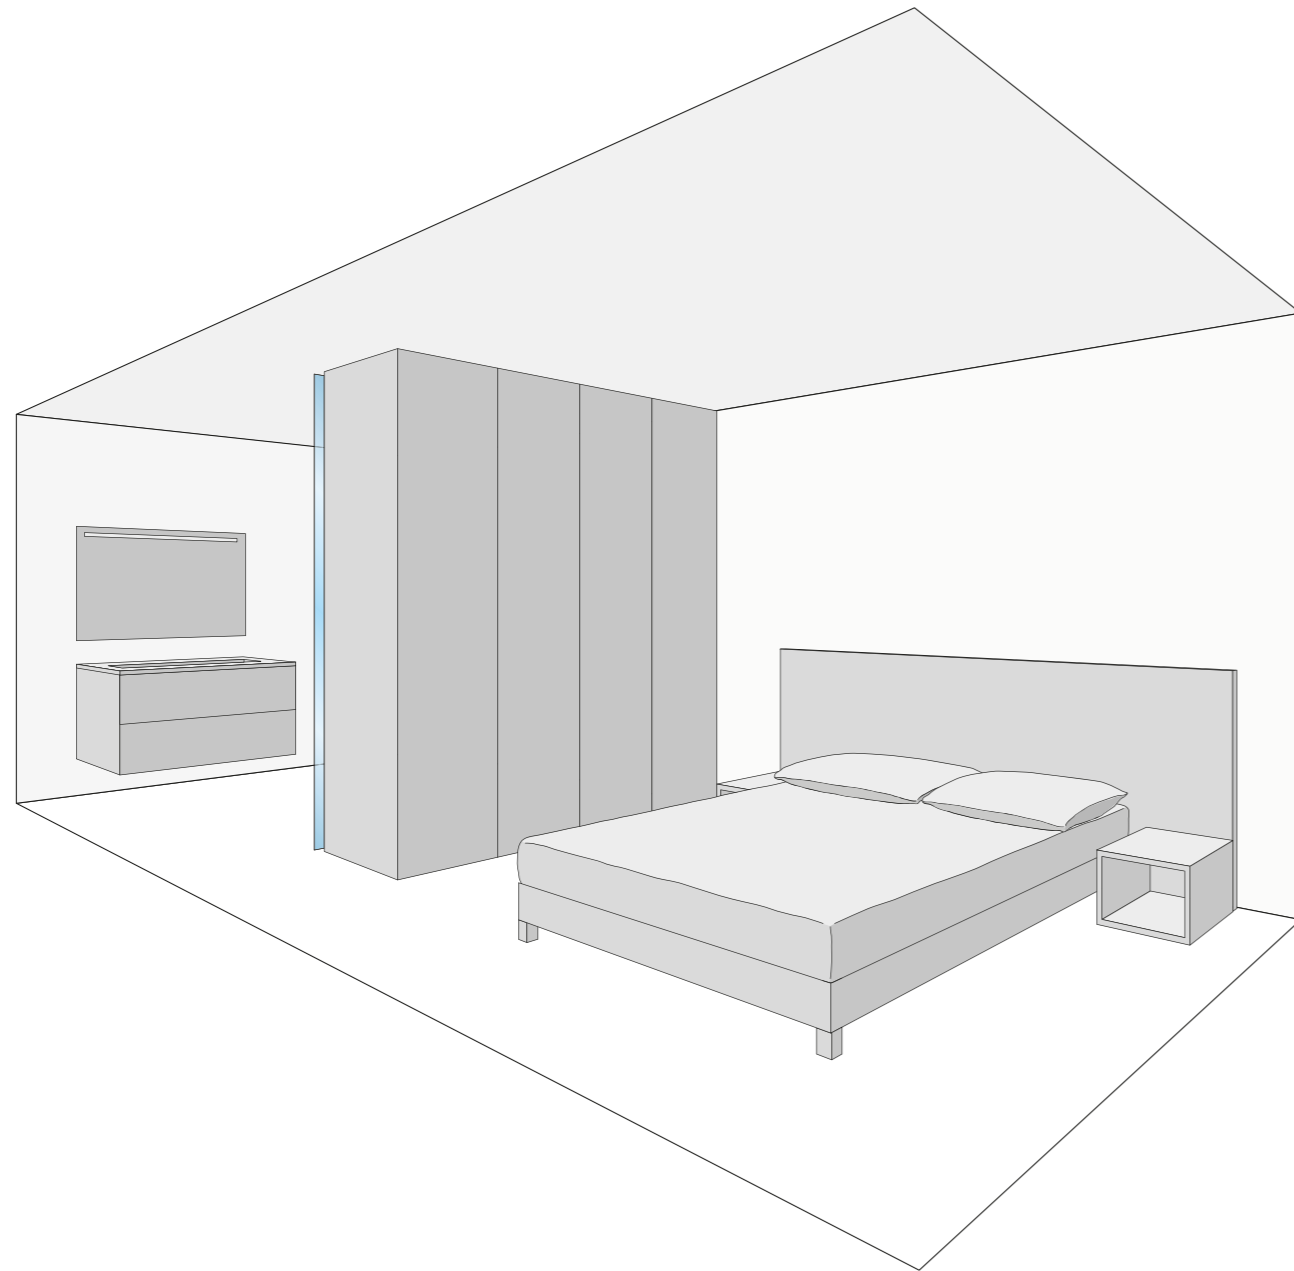

Organizzare lo spazio senza interruzioni, ostacoli o opere murarie. Grazie all'innovativa tecnologia che lavora senza binario superiore e inferiore, PS66 permette di ottenere un risultato pulito e lineare. Qui è rappresentata una classica applicazione di portale per cabina armadio. Un open space viene convertito in due stanze distinte con il solo utilizzo di pannelli in legno ed ante in vetro.

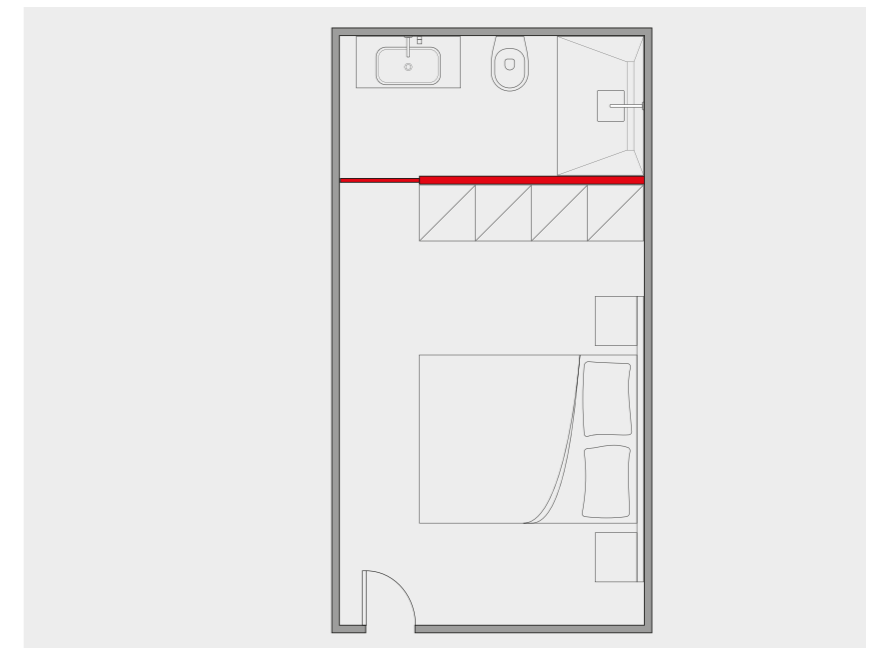

Organize the space without interruptions, obstacles or masonry works. Thanks to the innovative technology that works without upper and lower rails, PS66 allows you to obtain a clean and linear result. Here we represent a classic portal application for walk-in closet. An open space is converted into two separate rooms only using wooden panels and glass doors.

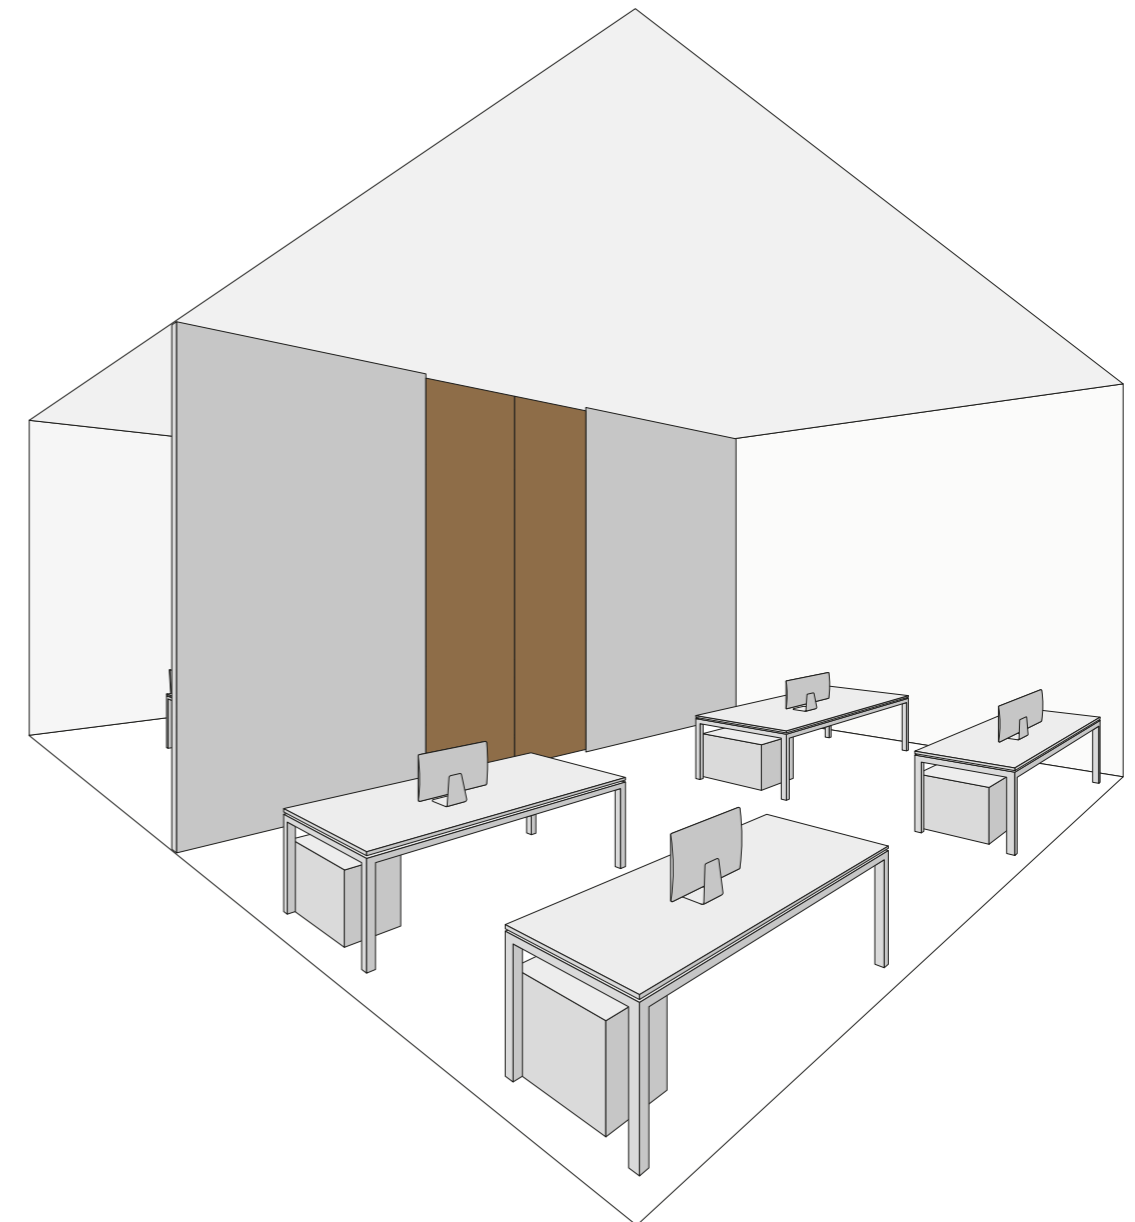

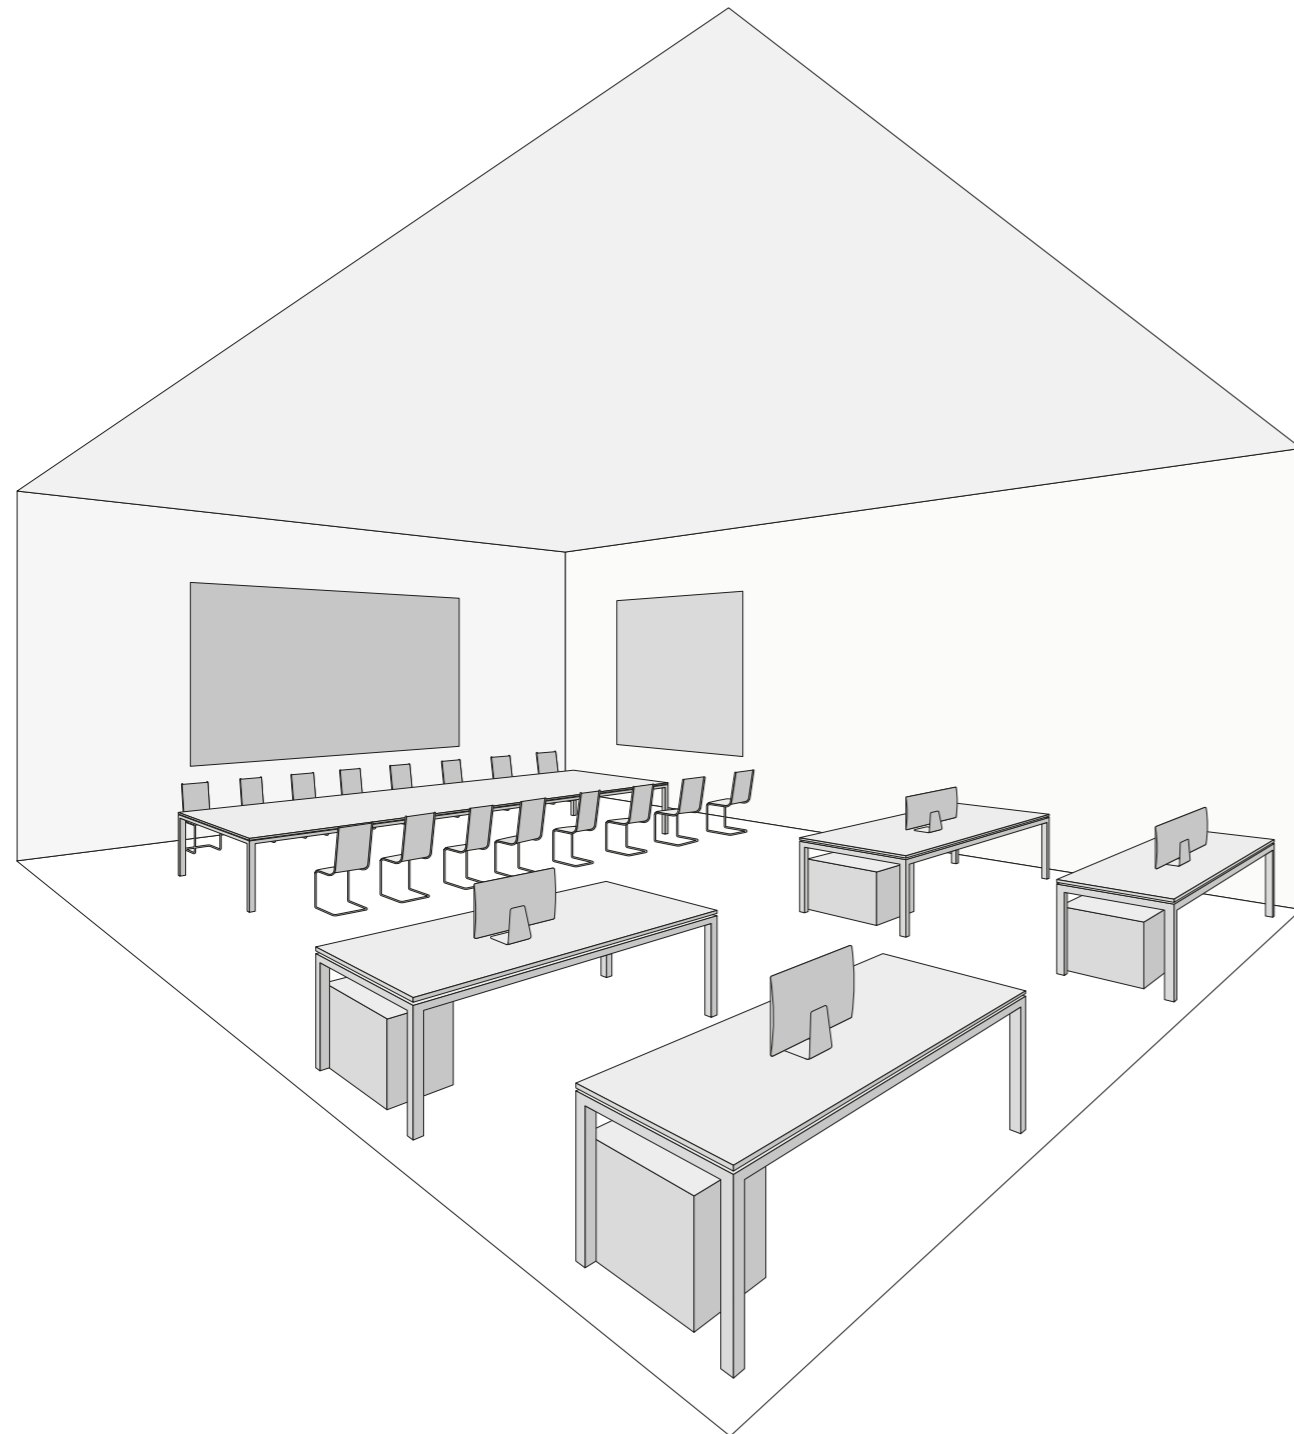

Una nuova idea di stanza, facile da creare e trasformare. Qui vediamo rappresentata una stanza divisa in due da un armadio e da PS66, applicato alla struttura stessa del mobile. L'assenza di muratura o di strutture permanenti rendono più semplice modificare il layout della stanza qualora si rendesse necessario.

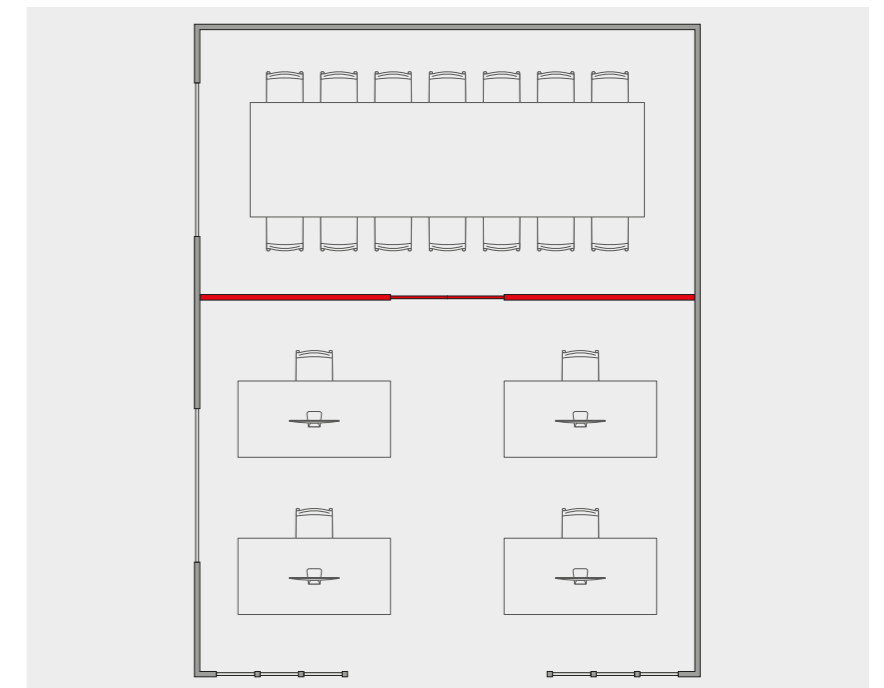

A new idea of room, easy to create and transform. Here we represent a room divided in two by a wardrobe and by PS66, applied to the structure of the cabinet itself. The absence of masonry or permanent structures make it easier to change the layout of the room if necessary.

Progetta un nuovo ambiente su misura per te. Reinventa anche grandi spazi grazie a PS66 e alla sua flessibilità. Questo sistema infatti permette di realizzare ante, vetro o legno, con un'altezza minima di 2100 mm fino ad un massimo di 3000 mm. Qui rappresentiamo PS66 nella versione con anta legno, utilizzato per dividere un ambiente ufficio da una nuova sala riunioni.

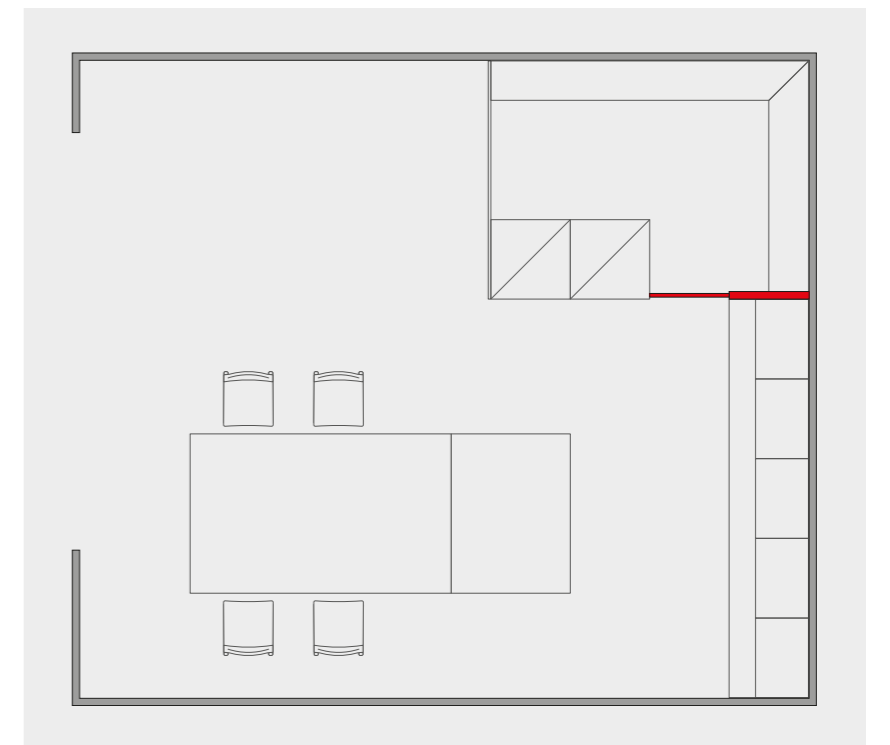

Design a new environment tailored for you. Reinvents also large spaces thanks to PS66 and its flexibility. In fact, this system makes possible to create glass or wooden doors with a minimum height of 2100 mm up to a maximum of 3000 mm. Here we represent PS66 in the version with wooden door, used to divide an office environment from a new meeting room.

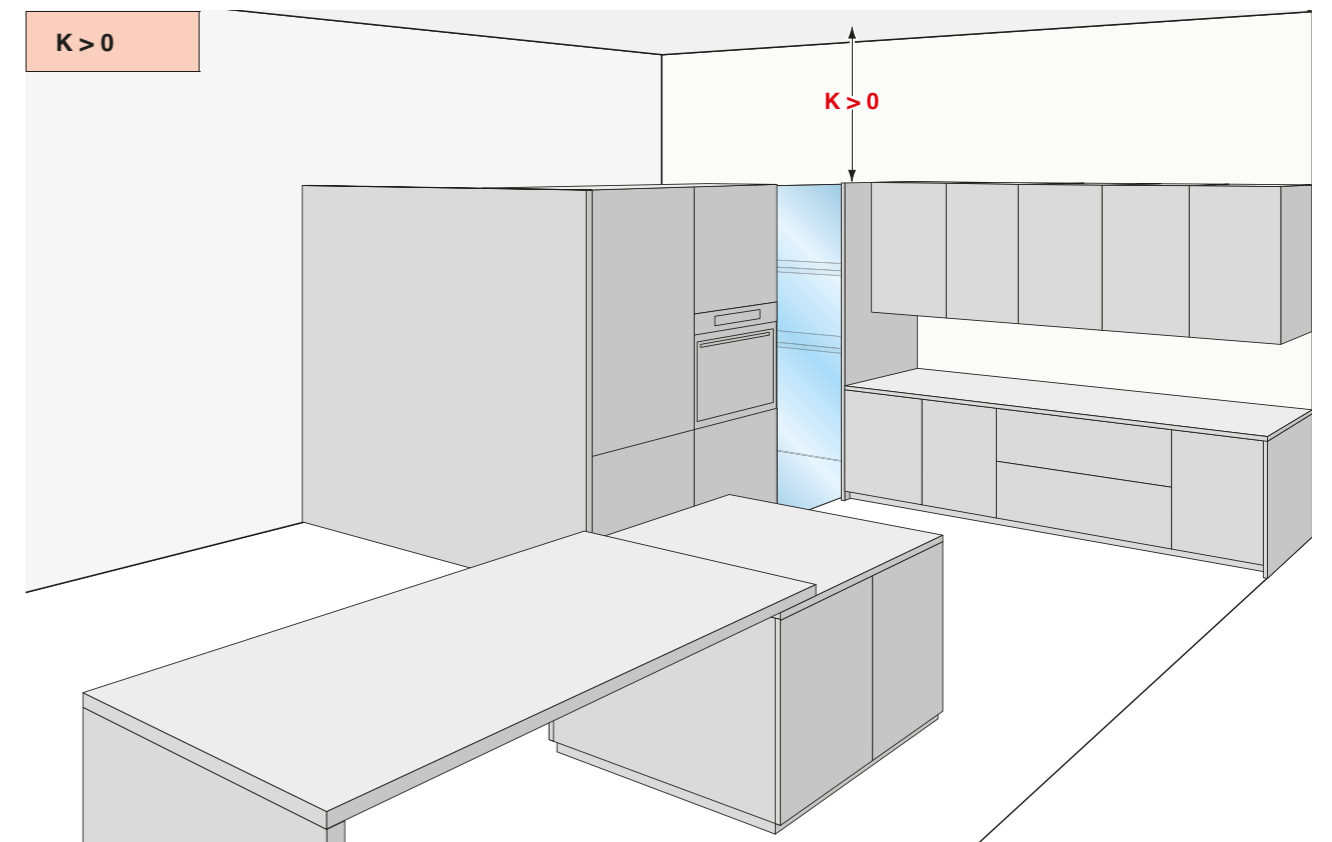

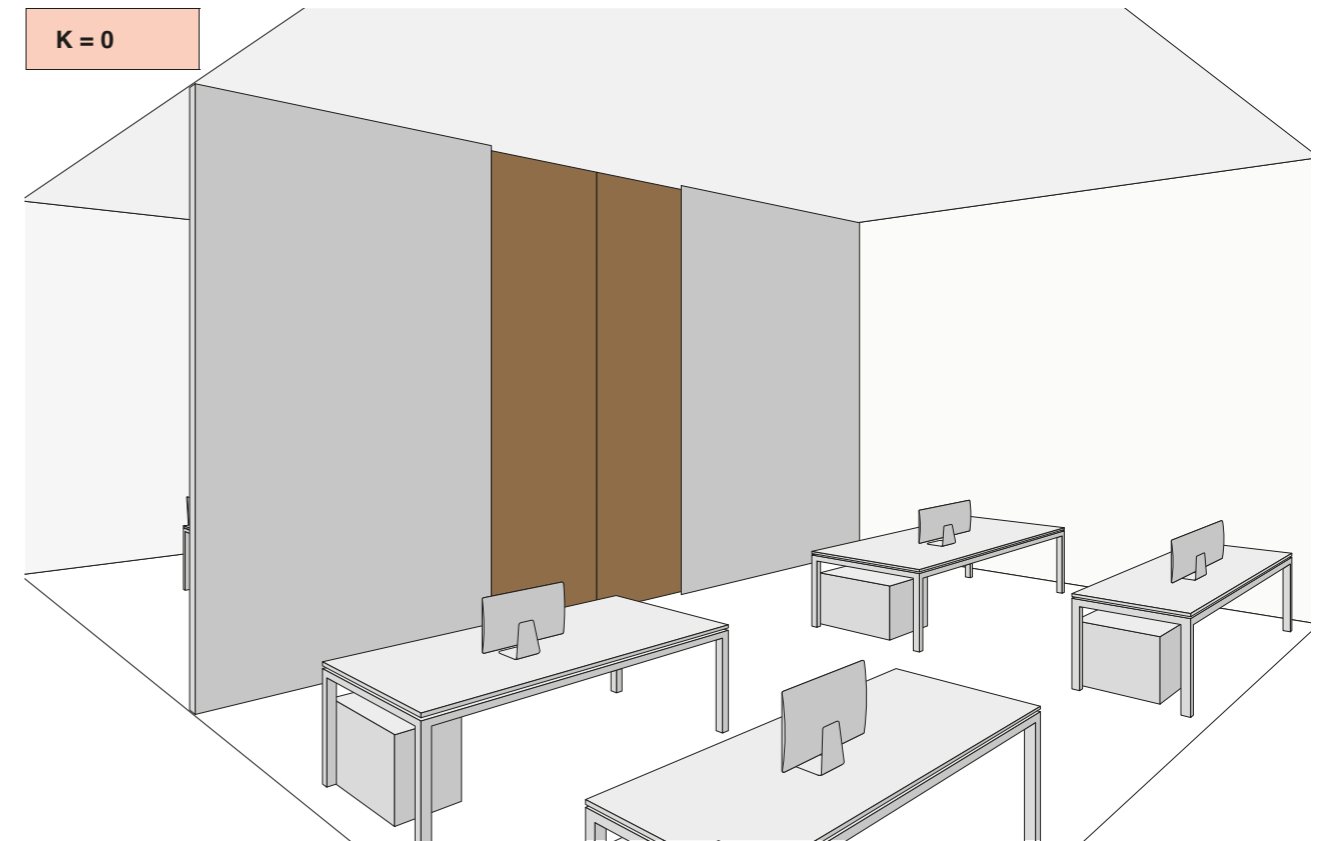

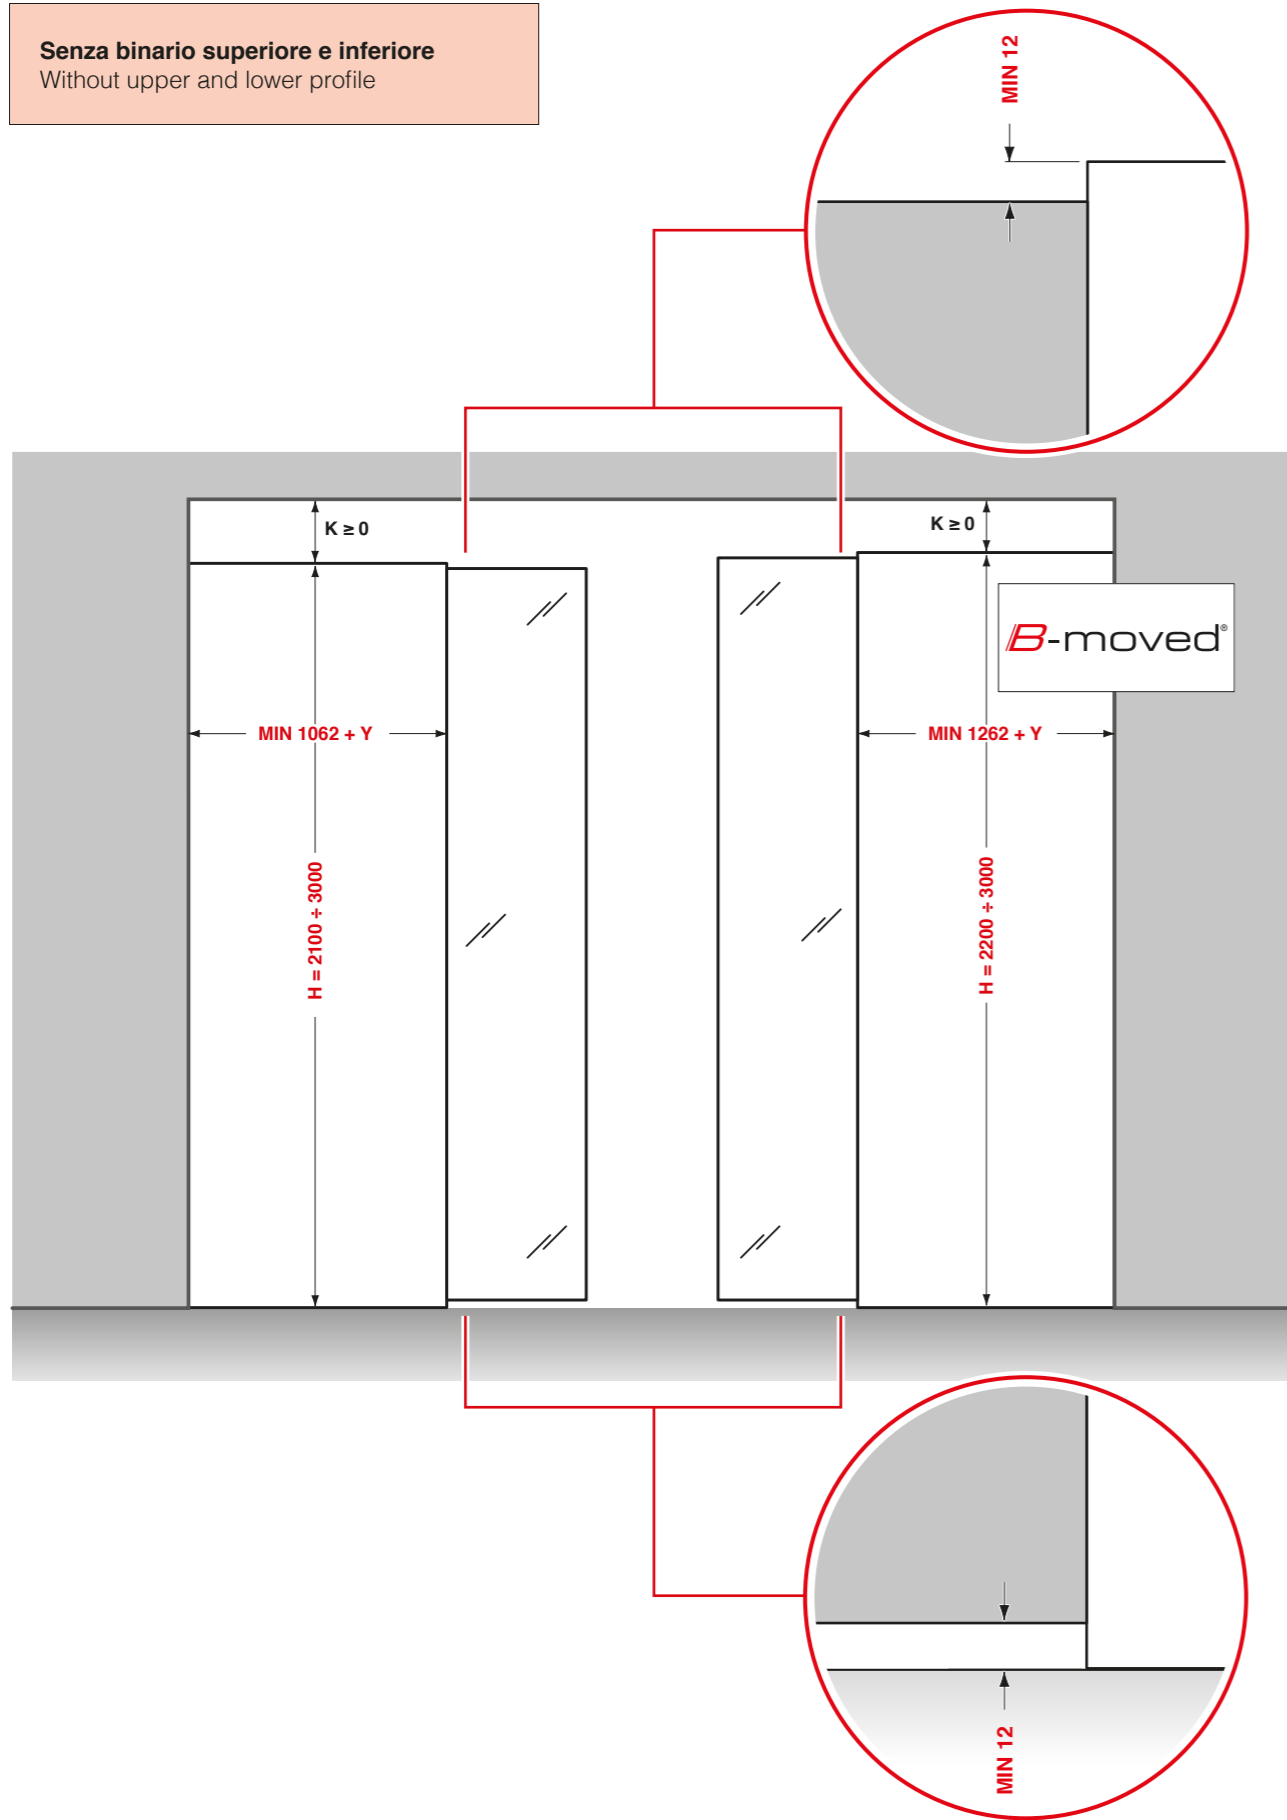

Unire l'utile al dilettevole. PS66 permette di ottenere un design ottimale senza rinunciare alla praticità. Qui illustriamo PS66 usato come accesso ad uno spazio "segreto", in questo caso la dispensa di una cucina. Grazie alle speciali caratteristiche del sistema, che lavora sospeso, l'anta rispetta le dimensioni dei moduli circostanti, integrandosi perfettamente nel design della cucina.

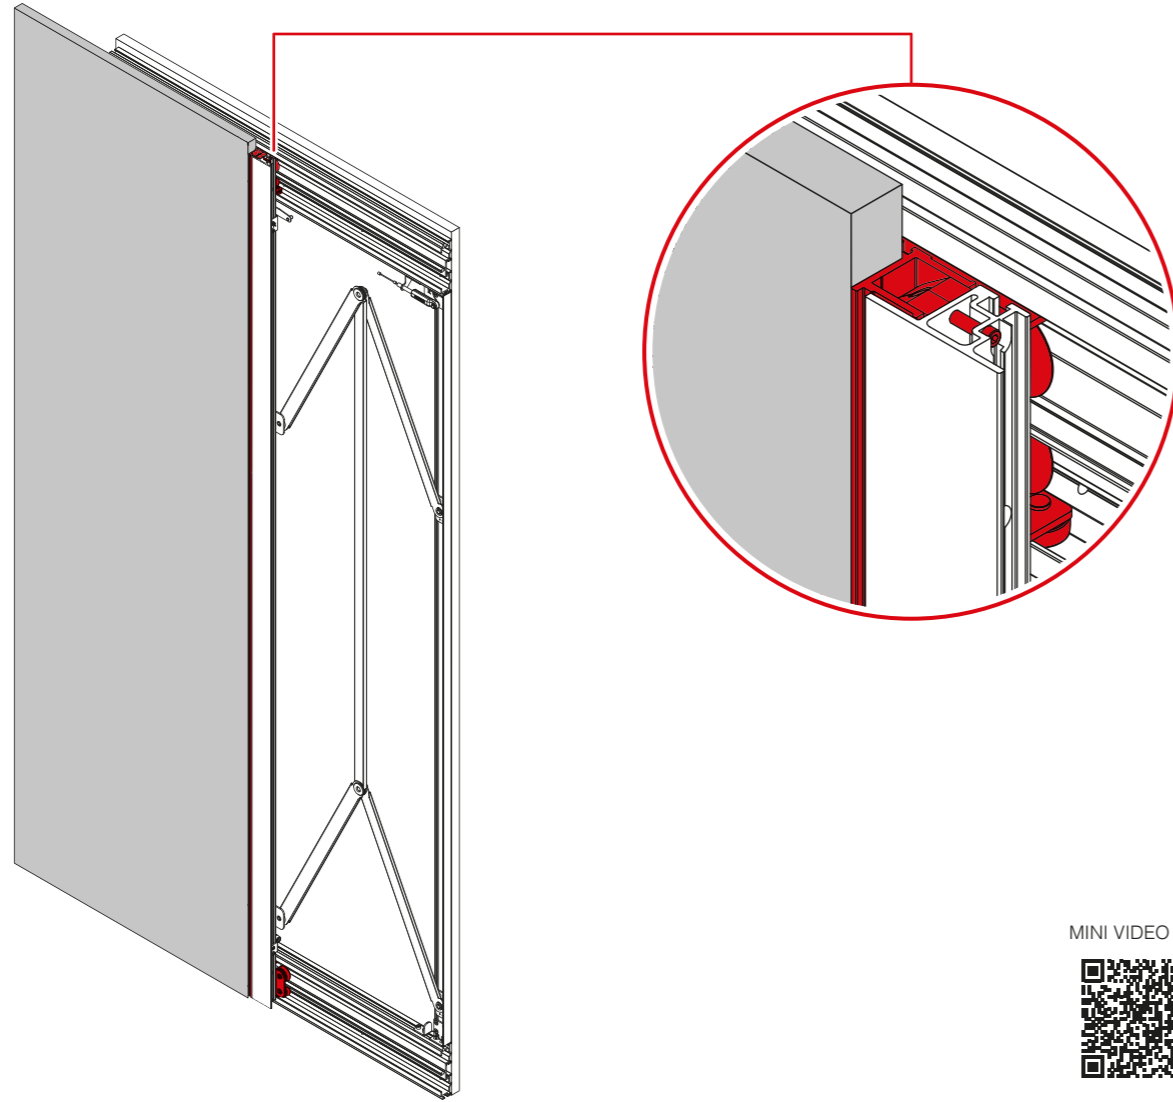

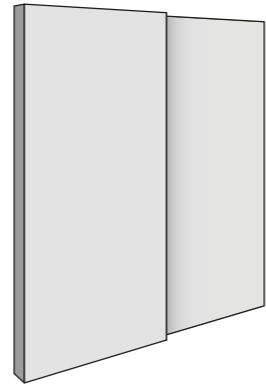

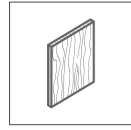

Combine useful and pleasant. PS66 allows to obtain an optimal design without sacrificing practicality. Here we illustrate PS66 used as an access to a "secret" space, in this case the pantry of a kitchen. Thanks to the features of the system, which works suspended, the door respects the dimensions of the surrounding modules, integrating perfectly into the design of the kitchen.

Senza binario superiore e inferiore
Without upper and lower profile

BM01CE8B000007

Unità di controllo elettronico con telecomando per sistema PS66 & B-moved.

Electronic unit control with remote control for PS66 & B-moved system.

BM01SE8B000002

Unità ricevente Wave Sensor.

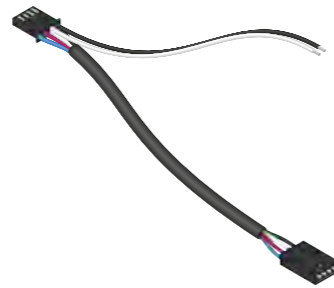

Wave Sensor receiver unit.

BM01CO9000001

Connettore per ingresso ausiliario di controllo.
Finitura: Nero

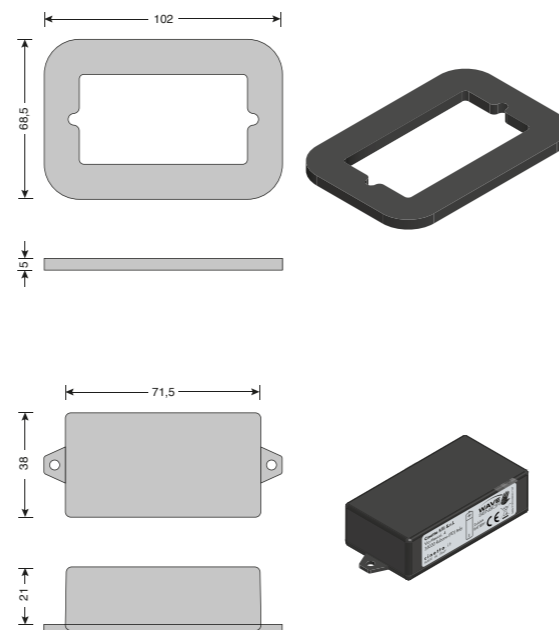

Connector for auxiliary control input.
Finish: Black

BM01SE9000001

Wave Sensor con adattatore per il montaggio. Batterie non incluse.
Finitura: Nero

Wave Sensor with assembling accessory. Batteries not included.
Finish: Black

Non utilizzare spray ed oli anti frizione o sblocca filetti sui cuscinetti o sulle ruote con O-ring dei pattini scorrevoli. Questo provoca lo scioglimento dei grassi dei cuscinetti rendendoli rumorosi oppure la rottura dell'O-ring.

Do not use any anti-friction oil or grease or thread-release spray on ball bearing or on wheels with O-ring, it can cause the melting of the inside ball bearing grease, making them noisy or causing the break of the O-ring of the wheels.
